

SOS4Life is focused on the betterment of broken people and we are preparing this Christmas to put together our third annual event... An action-packed night of entertainment, food, and auction/raffle contests to raise funds for our charity efforts. We are including up-and-coming artists and showcasing their talents as they provide an example of the path through the darkness and into the light while featuring artists with national and international fame! The lineup and guest performers and speakers will be announced in the coming weeks, but SOS4life is excited for the performance of the month in Nashville!
